Summary

I am a software developer with years of prior experience that demonstrates excellence in my quality of work. I am seeking employment that allows me to grow as a software engineer, as well as contribute to a positive work environment.

Relevant Experience

- **IT Volunteer** | Chesterfield Foodbank | December 2025 – Current
  - Responsibilities include generating reports on client data using Microsoft Excel, assisting the data entry team when needed, and troubleshooting and resolving various technical issues any of the employees may encounter.
- **DevOps Team Leader** | Maxx Work Simulator | January 2025 – March 2025
  - Responsibilities included teaching technical skills/concepts to three newer developers and leading the group following agile practices to create an employee website.
  - Project: Company Employee Portal
    - Full-Stack website that served as an employee portal for a fictitious company.
    - Included authentication functionality that allowed authenticated users to access different company data.
  - Technologies Used: VS Code, Git, Angular, Express.js, NPM, Nginx, MySQL.
- **Software Engineer** | AMC Technology | January 2024 – July 2024
  - Agile work environment.
  - Technical debt; Updating versions of Angular or .NET of different projects.
  - Improved or fixed UI to different web applications.
  - Tested and deployed projects during production pushes.
  - Technologies Used: VS Code, Git, Azure, Angular, ASP.NET Core
- **Software Development Intern** | AMC Technology | June 2021 – December 2023
  - Agile work environment.
  - Worked on various experimental web-development projects.
  - Technologies Used: VS Code, Git, Azure, Angular, ASP.NET Core
- **University Capstone Project** | Fall 2022 – Spring 2023
  - Project: Web App for Evaluating Pre-writing Skills in Children
    - Helps identify early developmental deficiencies in children.
    - First Place Winning Team of the Capstone Expo out of 91 teams.
    - Winner of the Sternheimer Grant.
  - Responsibilities
    - Front-End Development using React and the Canvas API.
    - Collaborating with other developers that worked on the project backend.
    - Recording notes during weekly meetings.

Education

- **Bachelor of Science in Computer Science** | Virginia Commonwealth University
  - Graduated December 2023, GPA: 3.9
- **Associate of General Studies** | Brightpoint Community College (Formerly John Tyler)
  - Graduated December 2019, GPA: 4.0

Other Work Experience

- **Grocery Clerk** | Publix | December 2020 – May 2021
- **Kitchen Crew Member** | Nanny's BBQ | March 2016 – August 2019
